ISO 9001:2008 specifies requirements for a quality management system where an organization. needs to demonstrate its ability to consistently provide product that meets customer and applicable statutory and regulatory requirements, and. aims to enhance customer satisfaction through the effective application of the system, including processes for continual improvement of the system and the assurance of conformity to customer and applicable statutory and regulatory requirements.

ISO - ISO 9001:2008 - Quality management systems ...
ISO 9001 version 2008, officially denoted as ISO 9001:2008, was published in the year 2008. It is the most current version of the ISO 9001 standard, which provides the requirements for a quality management system. (For more details, see What is a Quality Management System & What is ISO 9001 .) The previous revision of the standard was ISO 9001 version 2000, officially denoted as ISO 9001:2000, which had been the first big change since the standard was first released in 1987.

ISO 9001 version 2008: How has it changed since version 2000?
All accredited certifications issued will be to ISO 9001:2008 by the end of 2009. By the end of 2010, existing certification issued to ISO 9001:2000 will no longer be valid. Customers will need the revised version of ISO 9001 in order to keep their certificates up to date. BS EN ISO 9001 now includes a corrigendum which makes some changes to:
