Yamaha outboards are fitted with an identification plate (see main picture) on the port side engine mount bracket; this is the bracket that mounts the outboard to the transom of your boat. The outboard plate displays the model code, shaft length, serial number and older models also a quick reference letter that reflects 'production year' reference. Modern outboards do not show the quick ...

Although the Yamaha service manual recommends an inspection every 100 hours or every year, the water you run your F225 outboard in must also be taken into consideration. If you typically run in silty or sandy conditions, abrasive contaminants within the water will increase impeller wear. Similarly running in salt water and not flushing the motor afterwards will leave abrasive deposits within ...
