Amazon.com: Customer reviews: A History of Future Cities

Journalist, author and two-time Forefront contributor Daniel Brook saw the release of his second book, A History of Future Cities, this month. Focusing on the history and ongoing development of four international cities, Brook examines how St. Petersburg, Shanghai, Mumbai and Dubai have become "crucibles of non-Western modernity." Next City has already reviewed the book and will host Brook as he reads from our Storefront for Urban Innovation on March 5.

How Dubai Became Dubai – Next City

Future City Competition is a national competition in the United States that focuses on improving students' math, engineering, and science skills. The program is open to students in the 6th, 7th, and 8th grades who attend a public, private or home school. The Future City Competition is an example of problem-based learning with computer simulation, in STEM education. The program asks 6th, 7th and 8th grade students from around the nation to team with engineer-volunteer mentors to create ...
