~~Chapter 16 The Male Reproductive System Answer Key~~

This chapter details the anatomy and function of the mare's reproductive system. The reproductive tract of the mare may be considered as a Y-shaped tubular organ with a series of constrictions along its length. The perineum, vulva, vagina and cervix can be considered as the outer protective structures, and lie mainly within the pelvic cavity, providing protection for the inner, more vital structures, the uterus, fallopian tubes and ovaries, which lie in the abdominal cavity and are ...
