The Architecture of the Well-Tempered Environment: Banham ...

Description. The Architecture of the Well-Tempered Environment
presents the fundamental aspects of the architecture of the well-
tempered environment. This book considers what architects had
taken to be the proper use and exploitation of mechanical
environmental controls, and shows how this had manifested itself in
the design of their buildings.

The Architecture of Well-Tempered Environment (1969) follows Giedion's Mechanization Takes Command (1948), putting the development of technologies such as electricity and air conditioning ahead of the classic account of structures. In the 1960s, Cedric Price, Peter Cook, and the Archigram group also found this to be an absorbing arena of thought.
