The developments in Europe from the late 15th till the end of the 18th century represented a crucial phase in the emergence of the modern world. Scholars refer to this period as "early modern" and this expression is often associated with the rise of the modern West. The pace of change gained momentum during this period undermining the roots of the feudal society. The economic transformation pushed Europe towards capitalism. The forces of change could be located in the diverse spheres of human activities although the scale of change varied from one region to another. The transformation of local economies into the larger European market economy, the geographical discoveries, and the new sea

Feudalism To Industrialization routes resulted in the creation of colonial empires based on new forms of exploitation. The rise of nation-states under absolute rulers replaced the decentralized feudal structure. Discoveries in arts and sciences and the religious movements opened up new mental horizons that gave birth to new social attitudes, cultural patterns, and scientific outlook. At the same time, the negative trends during this period such as the rise of slave trade, new forms of exploitation, and a wild craze for witch-hunting are also included in the discussion. This book adopts an interpretive approach and tries to explain what led to the dislocation of centuries-old social order and the emergence of new social classes.

This book deals with the social and economic history of Europe from the decline of Feudalism in the late middle

current historiography on the period, the author posits change as represented by processes of progressive transformation, not by the breakdown of an earlier social order. Within this framework, he discusses such diverse themes as irrigation, urbanization, the formation of a dominant ruling caste, and the structure of polity in general.

The best country-by-country assessment of human rights. The human rights records of more than ninety countries and territories are put into perspective in Human Rights Watch's signature yearly report. Reflecting extensive investigative work undertaken by Human Rights Watch staff, in close partnership with domestic human rights activists, the annual World Report is an invaluable resource for journalists, diplomats, and citizens, and is a must-read for anyone interested in the fight to protect

human rights in every corner of the globe.

The book analyses the transition from the ancient to the medieval period in polity, economy, the caste system and culture. It examines the form of peasant protest and the reasons for their failure and infrequency. The author also examines the development of tantrism and the mentality that feudalism created.

Several treatises of Medieval India have been written in recent times yet Interpreting Medieval India: Early Medieval, Delhi Sultanate and Regions (circa 750-1550) is a seminal interventionist attempt at reconstructing the past. This textbook for students
