By Jonathan Bailor The Calorie

In The Calorie Myth, Jonathan Bailor exposes the fundamental flaw upon which the diet industry is built and offers a new equation: eat More + exercise Less = weight loss. If calorie math added up, 100 calories of vegetables = 100 calories of candy. That doesn't seem right—because it's not. While some calories fuel weight loss, others work against us.

On the opposite side, overfeeding studies, again, have shown equivalent amounts of fat gain on low-carb versus low-fat diets. So, it does actually seem to be largely the case in that context of the carb to fat ratio that for the most part, a calorie is a calorie. Jonathan Bailor: It is definitely the case in what I ' ve seen. That the discrepancy between fat and protein and the discrepancy between carbs and protein is monumental and undebatable in terms of the impact on body composition.

Jonathan Bailor: “ The Calorie Myth ” - #66

Jonathan explained, “ Quality over quantity...the calorie myths are all rooted in quantity. How much did you eat, how much did you exercise; what we need to do is think about quality, what did you eat and what did you do for exercise. Because once we take care of quality the body will take care of quantity for us. ” .
