~~Reaction Summary Sheet~~

~~| DAT Bootcamp~~

The Basic Chemistry of  
Acids and Bases. A lot of  
chemistry requires you to  
understand the difference  
between acids and bases.

An acid is a substance  
that donates an  $H^+$  ion

# Download Free Chemistry

to another chemical species called a base. A base is a substance that accepts (combines with) an  $H^+$  ion.. If you need to know the concentration of the  $H^+$  ion in solution, you can do so by representing the  $H^+$  molarity,  $[H^+]$ .
