1. A more traditional experimental (quantitative) approach, which sees social reality as a set of facts to be known for all time by measuring people in the laboratory; 2. A more critical, discursive (qualitative) approach, which sees social reality as mutually constructed between people in the real world. " .

The research paradigm – methodology, epistemology and ...

A variety of conceptions of qualitative research exist, with competing claims as to what counts as good quality work. Rather than opting for the criteria promoted by one variety, " paradigm, " " moment, " " or school within qualitative research, practicing researchers can learn valuable lessons from each one. This is because social research is a craft skill, relatively autonomous from the need to resolve philosophical disputes.
