"All of us are creatures of a day," wrote Marcus Aurelius, "rememberer and remembered alike." In his long-awaited new collection of stories, renowned psychiatrist Irvin D. Yalom describes his patients' struggles—as well as his own—to come to terms with the two great challenges of existence: how to have a meaningful life, and how to reckon with its inevitable end. In these pages, we meet a nurse, angry and adrift in a morass of misery where she has lost a son to a world of drugs and crime, and yet who must comfort the more privileged through their own pain; a successful businessman who, in the wake of a suicide, despairs about the gaps and secrets that infect every relationship; a newly minted psychologist whose study of the human condition damages her treasured memories of a lost friend; and a man whose rejection of philosophy forces even Yalom himself into a crisis of confidence. Their names and stories will linger long after the book's last page is turned. Like *Love's Executioner*, which established Yalom's preeminence as a storyteller illuminating the drama of existential therapy, *Creatures of a Day* is funny, earthy, and often shocking; it is a radically honest statement about the difficulties of human life, but also a celebration of some of the finest fruits—love, family, friendship—that life can bear. We are all creatures of a day. With Yalom as a guide, we can find in this book the means not just to make our own day bearable, but meaningful—and perhaps even joyful.

Night is coming, and so are they. Milena's twentieth birthday, the day she would join the ranks of her village's hunters, should have been the most exciting day of her life. Being a hunter meant she would be able to help protect her village from the murderous wolves who take human form—the creatures of the night. But a chance encounter with Elias, the enigmatic leader of the creatures, leaves her questioning everything she has ever believed to be true. Up until now, Elias has managed to protect the creatures of the night and keep the secrets of his past well hidden. Now, as tensions between the groups grow, Elias is forced to make hard decisions: ones that will cost lives. Nobody is safe, especially Milena, the person he is inexplicably drawn to even though it could destroy them both. Equal parts suspense, mystery, and romance, *Creatures of the Night* captures the struggle between learning to trust your instincts and each other.

In *Creatures of a Day*, Reginald Gibbons presents intense encounters with everyday people amidst the historical and social contexts of everyday life. His poems are meditations on memory, obligation, love, death, celebration, and sorrow. Some of them show how the making of poetry itself seems inextricably enmeshed with personal encounter and with history. This new collection includes five odes woven from interactions with others, thirteen shorter poems, and "Fern-Texts," a kind of biographical and autobiographical essay in syllabic verse on the parallel decades of the English 1790s and the American 1960s. Using quotations from the notebooks of Samuel Taylor Coleridge, "Fern-Texts" interweaves the dilemmas of love, ethics, and political engagement in Coleridge's life when he was in his twenties and in the poet's own life when, at the same age, he lived in California. Ranging from poems of witness to paradoxical speculations, from the personal intimacy of love and death to the broad scope of historical turmoil, *Creatures of a Day* is an unusual, powerful collection.

The many thousands of readers of the best-selling *Love's Executioner* will welcome this paperback edition of an earlier work by Dr. Irvin Yalom, written with Ginny Elkin, a pseudonymous patient whom he treated -- the first book to share the dual reflections of psychiatrist and patient. Ginny Elkin was a troubled young and talented writer whom the psychiatric world had labeled as "schizoid." After trying a variety of therapies, she entered into private treatment with Dr. Irvin Yalom at Stanford University. As part of their work together, they agreed to write separate journals of each of their sessions. *Every Day Gets a Little Closer* is the product of that arrangement, in which they alternately relate their descriptions and feelings about their therapeutic relationship.

With echoes of Toni Morrison's *Beloved*, Yejidé's novel explores a forgotten quadrant of Washington, DC, and the ghosts that haunt it. "Yejidé's writing captures both real news and spiritual truths with the deftness and capacious imagination of her writing foremothers: Zora Neale Hurston, Toni Morrison and N.K. Jemisin...*Creatures of Passage* is that rare novel that dispenses ancestral wisdom and literary virtuosity in equal measure." --Washington Post "Creatures of Passage resists comparison. It's reminiscent of *Beloved* as well as the *Odyssey*, but perhaps its most apt progenitor is the genre of epic poems performed by the djelis of West Africa...All these otherwise clashing elements become, in this cast, a cohesive whole, telling us that this, too, is America." --New York Times Book Review "In its luminous prose, and its nods to mysticism and myth, the novel brings to mind the best of Toni Morrison. It's that good." --Washington Post, One of the Best Books about Washington, DC, recommended by George Pelecanos "Yejidé's surreal new novel has no shortage of otherworldly surprises, but it's her this-worldly protagonist who steals the show...Informed by a richly woven mythology and propelled by

themes of regret and revenge, *Creatures of Passage* has earned some apt comparisons to Toni Morrison's *Beloved*." --Philadelphia Inquirer, One of the Best Books of Winter 2021 "Written over the course of 17 years, Morowa Yejidé ' s new book, *Creatures of Passage*, is set in Anacostia in 1977 and follows twins--one living, one dead--who share names with the Egyptian gods Nephthys and Osiris. But that barely hints at the richness and complexity of the book ' s many strands." --Washingtonian "Hauntingly magical, this sophomore novel by Morowa Yejidé centers a young woman dealing with the loss of her brother, her young great-nephew who mysteriously shows up at her door and Washington, DC, the city that provides an otherworldly backdrop to this imaginative thriller." --Ms. Magazine, A Most Anticipated Book of 2021 " Morowa Yejidé's *Creatures of Passage* gives readers a chance to experience grief and intergenerational trauma in a unique way." --The Root "This enthralling, otherworldly story follows Nephthys Kinwell, a taxi driver in Washington, D.C., as she grapples with grief." --Woman's World "Comparisons to Toni Morrison's masterpiece *Beloved* always perk up our ears, but in the case of Morowa Yejidé ' s *Creatures of Passage* the hype is warranted...History-haunted in the best sense, readers shouldn ' t miss this mythic thriller." --Chicago Review of Books Nephthys Kinwell is a taxi driver of sorts in Washington, DC, ferrying passengers in a 1967 Plymouth Belvedere with a ghost in the trunk. Endless rides and alcohol help her manage her grief over the death of her twin brother, Osiris, who was murdered and dumped in the Anacostia River. Unknown to Nephthys when the novel opens in 1977, her estranged great-nephew, ten-year-old Dash, is finding himself drawn to the banks of that very same river. It is there that Dash--reeling from having witnessed an act of molestation at his school, but still questioning what and who he saw--has charmed conversations with a mysterious figure he calls the "River Man." When Dash arrives unexpectedly at Nephthys's door bearing a cryptic note about his unusual conversations with the River Man, Nephthys must face what frightens her most. Morowa Yejidé's deeply captivating novel shows us an unseen Washington filled with otherworldly landscapes, flawed super-humans, and reluctant ghosts, and brings together a community intent on saving one young boy in order to reclaim itself.

A Belletrist Book Club Selection " Van Meter ' s debut is an unwavering triumph . . . A coming-of-age that ' s as human as it is wild. " —The New York Times Book Review On the eve of Evangeline ' s wedding, on the shore of Winter Island, a dead whale is trapped in the harbor, the groom may be lost at sea, and Evie ' s mostly absent mother has shown up out of the blue. From there, in this mesmerizing, provocative debut, the narrative flows back and forth through time as Evie reckons with her complicated upbringing in this lush, wild land off the coast of Southern California. Evie grew up with her well-meaning but negligent father, surviving on the money he made dealing the island ' s world-famous strain of weed, Winter Wonderland. Although her father raised her with a deep respect for the elements, the sea, and the creatures living within it, he also left her to parent herself. With wit, love, and bracing flashes of anger, *Creatures* probes the complexities of love and abandonment, guilt and forgiveness, betrayal and grief—and the ways in which our childhoods can threaten our ability to love if we are not brave enough to conquer the past. Lyrical, darkly funny, and ultimately cathartic, *Creatures* exerts a pull as strong as the tides.

" Profound and enthralling. This book is a delicate dream, mixing its own internal mythology with a brutal tale of prejudice and human frailty. I can ' t recommend it enough. Tanzer is absolutely one to watch. " —Seanan McGuire, bestselling, award-winning author of *In an Absent Dream* Amityville baywoman Ellie West fishes by day and bootlegs moonshine by night. It ' s dangerous work under Prohibition—-independent operators like her are despised by federal agents and mobsters alike—but Ellie ' s brother was accepted to college and Ellie ' s desperate to see him go. So desperate that when wealthy strangers ask her to procure libations for an extravagant party Ellie sells them everything she has, including some booze she acquired under unusual circumstances. What Ellie doesn ' t know is that this booze is special. Distilled from foul mushrooms by a cult of diabolists, those who drink it see terrible things—like the destruction of Long Island in fire and flood. The cult is masquerading as a church promising salvation through temperance and a return to " the good old days, " so it ' s hard for Ellie to take a stand against them, especially when her father joins, but Ellie loves Long Island, and she loves her family, and she ' ll do whatever it takes to ensure neither is torn apart.
