When old Mr. Haktak digs up a curious brass pot in his garden, he has no idea what use it can be. On his way home, Mr. Haktak decides to carry his coin purse in the mysterious pot. But when Mrs. Haktak's hairpin accidentally slips into the pot and she reaches in to retrieve it, the magic of the pot is revealed. Not only are there two hairpins inside, but there are also two purses!

Describes the philosophy of the Daily 5 teaching structure and includes a collection of literacy tasks for students to complete daily.

Rhyming tale of five boys and their father who forget about their chores on the farm to enjoy Minnie's good cooking, each requesting double what the previous one ordered.

It's hard work, taking care of 5 little ducks. But when each little duck comes home with a friend -- oh, no! Now it's double the ducks and double the work. How can 1 little boy get everything done? Understanding how to double numbers helps children master both addition and multiplication. Fun, friendship, and lots of ducks make learning this essential skill both easy and entertaining.

This must-have resource helps teachers successfully plan, organize, implement, and manage Guided Math Workshop. It provides practical strategies for structure and implementation to allow time for teachers to conduct small-group lessons and math conferences to target student needs. The tested resources and strategies for organization and management help to promote student independence and provide opportunities for ongoing practice of previously mastered concepts and skills. With sample workstations and mathematical tasks and problems for a variety of grade levels, this guide is sure to provide the information that teachers need to minimize preparation time and meet the needs of all students.

By the much-loved storyteller Ursula Dubosarsky comes this bouncing story about two cheeky koalas brought to life by Andrew Joyner's classic artwork. Here is Tim. And here is Ed. Same ears, same eyes, Same feet, same head. Tim and Ed love to be together all the time. So what will happen when Ed goes away for the night? From the award-winning team that brought you The Terrible Plop and Too Many Elephants in this House comes this energetic and delightful story about the beginnings of independence, and about being the same - but different! Tim and Ed is a tale to be read with laughter and enjoyed by all.

Introduces the numbers two, three, and four by enumerating the ways in which they occur in everyday life, from your two eyes and two arms to the four seasons of the year.

A remarkable new approach to teaching the basics! In just minutes a day, students can master the addition facts 0 through 10. These 10 unique, easy-to-use lesson plans with worksheets, take-home pages and other support materials are all you need for a fast, fun and effective program.

"This resource supports new and experienced educators who want to prepare for and design purposeful number talks for their students; the author demonstrates how to develop grade-level-specific strategies for addition, subtraction, multiplication, and division. Includes connections to national standards, a DVD, reproducibles, bibliography, and index"--Provided by publisher.

In just minutes a day, students can master the addition facts 0 through 10. The short, easy-to-learn rules, patterns, and memory techniques in this program are similar to those used in language arts. These 10 unique, easy-to-use lesson plans with worksheets, take-home pages and other support materials are all you need for a fast, fun and effective program.
