Motivation makes all the difference. And what's more motivating than the expectation of success? The instructions are clear and to the point, so students can quickly get down to writing practice in these 64-page worktexts. Helpful prompts pack the worktext lesson pages including illustrations, examples, and sample responses. Sample Content: book and movie reviews, travelogue, a character sketch, fashions.

"Where are you from?" An easy question for most to answer, but a very tough one for Third Culture Kids (TCKs). These children grow up outside their parents' home cultures, neither belonging entirely to their home culture nor to their host culture. They face unique challenges in establishing their identity and a sense of belonging, especially when returning to their home country. An increasing number of Singaporean families are living overseas for various reasons, and their children are growing up as TCKs. On returning to Singapore, these Singaporean TCKs will have to cope with a variety of re-entry stresses when adjusting to Singapore culture, making new friends, and continuing their education in the Singapore education system. Many existing books about the TCK experience are written from the perspective of other cultures, chiefly the US. This book addresses some factors unique to the Singapore environment and provides Singaporean parents with suggestions to smooth their children's re-entry to Singapore. With experience drawn from the real-life experiences of the authors' children and others they know personally, this book will be helpful to families of TCKs through the whole process: preparing to leave Singapore, while overseas, and, especially, when they return.

Suitable for high school students with high mathematics ability and people above high school level. High school students with higher mathematics ability should learn more in-depth Mathematical Olympiad topics through independent learning methods to further improve their mathematics level, which is conducive to studying university subjects in the future.

• Previous years' Solved Papers 2011 to 2020 • Assessment through 3 Levels of Questions--Level 1, Level 2 & Achievers • Answer Key with Explanations • Amazing Facts, Fun Trivia & 'Did You Know?' • Concept Review with Examples • Latest Sample Papers with complete solutions
