In the Shadow of the Sword is a history book charting the origins of Islam. The author, Tom Holland, had previously written two works on ancient history: Rubicon: The Last Years of the Roman Republic, which charted the fall of the Roman Republic, and Persian Fire, which is an account of the Greco-Persian Wars during the 5th century BC. According to Holland, "To understand the origins of Islam, and why it evolved in the way that it did, we must explore the empires and religions of late antiquity"

In the Shadow of Litani - Los Angeles Review of Books

Barcelona, 1945: A city slowly heals from its war wounds, and Daniel, an antiquarian book dealer's son who mourns the loss of his mother, finds solace in a mysterious book entitled The Shadow of the Wind, by one Julian Carax.

The Shadow of the Wind by Carlos Ruiz Zafón

an area of darkness caused when light is blocked by something, usually in a shape similar to the object that is blocking the light: [C] Chloë kept jumping on Tyler 's shadow. [U] This corner of the room is always in shadow. [C] He was standing in the shadows (= a dark area).

SHADOW | meaning in the Cambridge English Dictionary

Shadow definition is - the dark figure cast upon a surface by a body intercepting the rays from a source of light. How to use shadow in a sentence.

Representing the letter “ Z ” in a series of 26 collectible editions, a new design of a classic novel follows the son of an antiquarian book dealer who stumbles upon a dark secret while trying to discover why all copies of a mysterious author's books are being systematically destroyed.

In the 6th century AD, the Near East was divided between two great empires: the Persian and the Roman. A hundred years on, and one had vanished for ever, while the other was a dismembered, bleeding trunk. In their place, a new superpower had arisen: the empire of the Arabs. So profound was this upheaval that it spelled, in effect, the end of the ancient world. But the changes that marked the period were more than merely political or even cultural: there was also a transformation of human society with incalculable consequences for the future. Today, over half the world's population subscribes to one of the various religions that took on something like their final form during the last centuries of antiquity. Wherever men or women are inspired by belief in a single god to think or behave in a certain way, they bear witness to the abiding impact of this extraordinary, convulsive age - though as Tom Holland demonstrates, much of what Jews, Christians and Muslims believe about the origins of their religion is open to debate. In the Shadow of the Sword explores how a succession of great empires came to identify themselves with a new and revolutionary understanding of the divine. It is a story vivid with drama, horror and startling achievement, and stars many of the most remarkable rulers ever seen.

EM Castellan's In the Shadow of the Sun is a sumptuous YA fantasy/romance novel set in 17th century Versailles. It 's 1661 in Paris, and magicians thrill nobles with enchanting illusions. Exiled in France, 17-year-old Henriette of England wishes she could use her magic to gain entry at court. Instead, her plan is to hide her magical talents, and accept an arranged marriage to the French king 's younger brother. Henriette soon realizes her fiancé prefers the company of young men to hers, and court magicians turn up killed by a mysterious sorcerer who uses forbidden magic. When an accident forces Henriette to reveal her uniquely powerful gift for enchantments to Louis, he asks for her help: she alone can defeat the dark magician threatening his authority and aid his own plans to build the new, enchanted seat of his power--the Palace of Versailles.

North Korea is known as the most repressive country on Earth, with a dictatorial leader, a starving population, and harsh punishment for rebellion. Not the best place for a family vacation. Yet that's exactly where Mia Andrews finds herself, on a tour with her aid-worker father and fractious older brother, Simon. Mia was adopted from South Korea as a baby, and the trip raises tough questions about where she really belongs. Then her dad is arrested for spying, just as forbidden photographs of North Korean slave-labor camps fall into Mia's hands. The only way to save Dad: get the pictures out of the country. Thus Mia and Simon set off on a harrowing journey to the border, without food, money, or shelter, in a land where anyone who sees them might turn them in, and getting caught could mean prison -- or worse. An exciting adventure that offers a rare glimpse into a compelling, complicated nation, In the Shadow of the Sun is an unforgettable novel of courage and survival.

Modern, original fiction for learners of English. A tragic love story is uncovered as journalist Clare Crowe goes to Switzerland to bring home a relative's body. Clare's grandfather has been found frozen in a glacier, 74 years after a climbing

accident. Clare knows this could make an interesting story for her newspaper, but as she investigates her grandfather's last climb, she learns that the accident wasn't as simple as she had first thought.

The "made in China" label has long dominated the lower end of the US manufacturing industry, effectively squeezing it out of existence. That's old news. What most people don't know is that China's global reach now extends much further. Chinese companies have entered higher-end markets — technology, financial services, transportation, energy — and are emerging as powerhouse multinationals. *In the Shadow of the Dragon* is a meticulously researched exposé of the most competitive companies in China. Based on interviews with Chinese business leaders and original case studies, the book provides:

- ò Profiles of key players
- ò Insights into subtle yet powerful strategies used to gain market dominance
- ò An understanding of the Chinese approach to going global
- ò Analysis of the Chinese way of innovation
- ò Advice on competing head-to-head or forming alliances with Chinese partners

Part primer, part survival guide, *In the Shadow of the Dragon* is the first book to lay bare the challenges looming ahead.

A clear-eyed and compassionate memoir of the Appalachian experience by a woman who embraced its astonishing beauty, narrowly escaped its violence, and struggles to call it home. Bobi Conn was raised in a remote Kentucky holler in 1980s Appalachia. She remembers her tin-roofed house tucked away in a vast forest paradise; the sparkling creeks, with their frogs and crawdads; the sweet blackberries growing along the road to her granny's; and her abusive father, an underemployed alcoholic whose untethered rage and violence against Bobi and her mother were frighteningly typical of a community marginalized, desperate, and ignored. Bobi's rule of survival: always be vigilant but endure it silently. Slipping away from home, Bobi went to college and got a white-collar job. Mistrusted by her family for her progress and condescended to by peers for her accent and her history, she was followed by the markers of her class. Though she carried her childhood self everywhere, Bobi also finally found her voice. An elegiac account of survival despite being born poor, female, and cloistered, Bobi's testament is one of hope for all vulnerable populations, particularly women and girls caught in the cycle of poverty and abuse. On a continual path to worth, autonomy, and reinvention, Conn proves here that "the storyteller is the one with power."

"This tender memoir" by the Rome Prize – winning novelist revisits the bohemian era of downtown Manhattan in a tale of love, art, and the AIDS crisis (Publishers Weekly). From the 1950s through the 1970s, downtown Manhattan was a hotbed of creative life where artists and writers were free to explore ideas and push boundaries. As a young man, celebrated author and playwright Joseph Caldwell arrived from Milwaukee to become one of the original pioneers of New York's gay bohemian community. In this charming, brutally candid memoir, Caldwell describes his tenure working at the venerated classical music station WQXR, marching in civil protests and being arrested, his evolution as a writer, and his many accomplished acquaintances. Opening with a tender and intimate moment he shared with photographer William Gale Gedney on the Brooklyn Bridge in 1959, Caldwell charts the course of his quixotic pining for him across three decades. But by the early 1980s, the AIDS epidemic terrorizes New York, and the atmosphere of free love and sex is replaced by unrelenting fear. In a tragic twist of fate, Caldwell is finally reunited with Gedney to care for him as he is ravaged by the disease. "[Joseph Caldwell's] intimate portrait of gay life in New York City before Stonewall is an important addition to LGBTQ history." —Peter Cameron, author of *Someday This Pain Will Be Useful to You*

"[A] brief yet rich, meditative memoir about a talented Midwestern transplant trying to make his mark on New York City . . . A simultaneously tragic and uplifting story of enduring love." —Kirkus Reviews

"Thorough study of the endogenous and external factors that have shaped Mexico's dealings with the Central American republics. Asserts that Mexico's policy has reflected both its status as a 'middle power' between Central America and the United States, and its desire to assert a leadership role in the region"--*Handbook of Latin American Studies*, v. 58.

Oskar Skarsaune gives us a new look into the development of the early church and its practice by showing us the evidence of interaction between the early Christians and rabbinic Judaism. He offers numerous fascinating episodes and glimpses into this untold story.
