The Israeli Nuclear Program Today. Modern Israeli nuclear policy includes the Begin Doctrine, which supports military action to prevent its enemies from acquiring nuclear weapons. The policy began with the 1981 bombing of Iraq's Osiraq reactor, which Prime Minister Menachem Begin called "a precedent for every future government in Israel."

Israeli Nuclear Program | Atomic Heritage Foundation

Although Israel has never publicly acknowledged that its nuclear program was aimed at building the atomic bomb, it is nonetheless believed that it managed to assemble enough material to build rudimentary nuclear devices during the crisis leading up to the 1967 Six-Day War, otherwise known Third Arab-Israeli War, which began on June 5, when Israel bombed Egyptian airfields and launched a ground invasion of the Sinai Peninsula.

Israel and weapons of mass destruction - Wikipedia

Israel's sabotage and assassinations have not destroyed Iran's nuclear program. But they have set it back. As the architect of that program, Fakhrizadeh will be hard to replace. What will be even harder for the regime, however, is persuading its other scientists that they will be safe if they continue the quest for a nuclear weapon. □
