Poet, philosopher, translator, typographer, and cultural historian Robert Bringhurst is a modern-day Renaissance man. He has forged a career from diverse but interwoven vocations, finding ways to make accessible to contemporary readers the wisdom of poets and thinkers from ancient Greece, the Middle East, Asia, and North American First Nations. This collection shows the ways in which his industry-standard textbook *The Elements of Typographic Style*, his remarkable translations of Haida oral epics, and his experimental and traditional poetry and prose form a single coherent project. *Listening for the Heartbeat of Being* brings together a range of literary scholars, poets, journalists, and publishers to comment on Bringhurst's far reaching body of work. The essays include a comprehensive biography of Bringhurst, first-hand accounts of his book design and production efforts, an analysis of his ground-breaking polyphonic performance poems, and re-considerations of the Masterworks of the Classical Haida Mythtellers translation trilogy. Experienced Bringhurst scholars join well-known writers such as Dennis Lee and Margaret Atwood to create a multi-dimensional view of Bringhurst's career. Guided by the simple faith that "everything is connected to everything else," Bringhurst's ability to listen closely to the great minds of many cultures and represent their voices pragmatically is, as this diverse and insightful book shows, of greater interest than ever in a world facing unprecedented ecological crisis and intensive cultural evolution. Contributors include Margaret Atwood, Nicholas Bradley (University of Victoria), Crispin Elsted (Barbarian Press), Clare Goulet (Mount St. Vincent University), Iain Higgins (University of Victoria), Ishmael Hope, Peter Koch (Peter Koch Printers), Dennis Lee, Scott McIntyre, Katherine McLeod (Concordia University), Kevin McNeilly (University of British Columbia), Káawan Sangáa, and Erica Wagner.

Listen to the Heartbeat of the Church resurrects the concept of episcopal visitation, an age-old and rarely used practice in Catholic parishes and dioceses. Using information gleaned from a survey of 100 Benedictine monasteries along with a nine-month experience of facilitating a parish goal-setting process, Baroch describes how visitation can strengthen parishes and dioceses by closing the communication gap that sometimes exists between the laity and the hierarchy. Her fictional account of St. Anonymous Catholic Church, the heart of the book, shows how a struggling congregation can accomplish its goals when parishioners, the pastor, and their bishop engage in shared ministry. It can happen--one parish, one diocese, at a time.

What makes God smile? What makes God angry? What makes God's heart beat? Have you ever wanted to know the answers to these questions about God? Do you want to find out if what youve always thought about God is really true? You can get answers to these questions by looking at what the Bible says about the heart of God. In this stimulating and heartfelt book, Dr. Harold Shank leads us through an in-depth study of scripture that will help us find out what makes Gods heart beat. Dr. Shank also explores how to reconcile some of the difficult-to-comprehend aspects of Gods heart. How can His goodness and love be reconciled with His command to utterly destroy a certain group of people? or If God cares about brokenhearted people, why are there so many of them in our world?

FINALIST FOR THE 2019 NATIONAL BOOK AWARD LONGLISTED FOR THE 2020 ANDREW CARNEGIE MEDAL FOR EXCELLENCE A NEW YORK TIMES BESTSELLER Named a best book of 2019 by The New York Times, TIME, The Washington Post, NPR, Hudson Booksellers, The New York Public Library, The Dallas Morning News, and Library Journal. "Chapter after chapter, it's like one shattered myth after another." - NPR "An informed, moving and kaleidoscopic portrait... Treuer's powerful book suggests the need for soul-searching about the meanings of American history and the stories we tell ourselves about this nation's past.." - New York Times Book Review, front page A sweeping history--and counter-narrative--of Native American life from the Wounded Knee massacre to the present. The received idea of Native American history--as promulgated by books like Dee Brown's mega-bestselling 1970 Bury My Heart at Wounded Knee--has

been that American Indian history essentially ended with the 1890 massacre at Wounded Knee. Not only did one hundred fifty Sioux die at the hands of the U. S. Cavalry, the sense was, but Native civilization did as well. Growing up Ojibwe on a reservation in Minnesota, training as an anthropologist, and researching Native life past and present for his nonfiction and novels, David Treuer has uncovered a different narrative. Because they did not disappear—and not despite but rather because of their intense struggles to preserve their language, their traditions, their families, and their very existence—the story of American Indians since the end of the nineteenth century to the present is one of unprecedented resourcefulness and reinvention. In *The Heartbeat of Wounded Knee*, Treuer melds history with reportage and memoir. Tracing the tribes' distinctive cultures from first contact, he explores how the depredations of each era spawned new modes of survival. The devastating seizures of land gave rise to increasingly sophisticated legal and political maneuvering that put the lie to the myth that Indians don't know or care about property. The forced assimilation of their children at government-run boarding schools incubated a unifying Native identity. Conscription in the US military and the pull of urban life brought Indians into the mainstream and modern times, even as it steered the emerging shape of self-rule and spawned a new generation of resistance. *The Heartbeat of Wounded Knee* is the essential, intimate story of a resilient people in a transformative era.

FROM THE AUTHOR OF THE NEW YORK TIMES BESTSELLER, *THE HIDDEN LIFE OF TREES* A powerful return to the forest, where trees have heartbeats and roots are like brains that extend underground. Where the color green calms us, and the forest sharpens our senses. In *The Heartbeat of Trees*, renowned forester Peter Wohlleben draws on new scientific discoveries to show how humans are deeply connected to the natural world. In an era of cell phone addiction, climate change, and urban life, many of us fear we've lost our connection to nature—but Peter Wohlleben is convinced that age-old ties linking humans to the forest remain alive and intact. Drawing on science and cutting-edge research, *The Heartbeat of Trees* reveals the profound interactions humans can have with nature, exploring: the language of the forest the consciousness of plants and the eroding boundary between flora and fauna. A perfect book to take with you into the woods, *The Heartbeat of Trees* shares how to see, feel, smell, hear, and even taste the forest. Peter Wohlleben, renowned for his ability to write about trees in an engaging and moving way, reveals a wondrous cosmos where humans are a part of nature, and where conservation and environmental activism is not just about saving trees—it's about saving ourselves, too. Praise for *The Heartbeat of Trees* "As human beings, we're desperate to feel that we're not alone in the universe. And yet we are surrounded by an ongoing conversation that we can sense if, as Peter Wohlleben so movingly prescribes, we listen to the heartbeat of all life." —Richard Louv, author of *Our Wild Calling* and *Last Child in the Woods* "Astonishment after astonishment—that is the great gift of The

Heartbeat of Trees. It is both a celebration of the wonders of trees, and a howl of outrage at how recklessly we profane them." –Kathleen Dean Moore, author of *Earth's Wild Music* "As Peter Wohlleben reminds us in *The Heartbeat of Trees*, trees are the vocabulary of nature as forests are the brainbank of a living planet. This was the codex of the ancient world, and it must be the fine focus of our future." –Dr. Diana Beresford-Kroeger, author of *To Speak for the Trees* and *The Global Forest* "Peter Wohlleben knows the battle that lies before us: forging a closer relationship with nature before we destroy it. In *The Heartbeat of Trees* he takes us deep into the global forest to show us how." –Jim Robbins, author of *The Man Who Planted Trees*
