Beginning in 1930 Oliver built the 4-cylinder Oliver 18-28 tractor. This was a severe departure from the two-cylinder engines used in the Hart-Parr tractors. Many follow-on models were produced over the years, including the very popular 60, 70, and 80 models. In 1948 a new fleetline series was introduced which included the 66, 77 and 88 models.
