Marketing Nutrition: Soy, Functional Foods, Biotechnology ...

Throughout this book, functional foods refers to those that provide a health benefit beyond basic nutrition (Table 1.1). A functional food can be naturally functional (such as oatmeal, which contains cholesterol-reducing beta glucan), or it can contain an added ingredient that makes the traditional food functional (such as probiotic bacteria ...

Marketing Nutrition: Soy, Functional Foods, Biotechnology ...

Introduction. Marketing is not simply a clever "Got Milk" advertising campaign, a fifty-cent coupon on a soy burger, or a convenient combination pack of precut vegetables. In the context of nutrition, marketing is much broader. It focuses on all efforts to encourage and enable people to eat more nutritiously.

Marketing Nutrition: Soy, Functional Foods, Biotechnology ...

Although encouraging people to eat more nutritiously can promote better health, most efforts by companies, health professionals, and even parents are disappointingly ineffective. Consumer confusion has led to floundering sales for soy foods; embarrassing results for expensive Five-a-Day for Better Health programs; and uneaten mountains of vegetables at homes and in school cafeterias.
