By: Kathleen Gaines MSN, BA, RN, CBC. According to the American Nurses Association (ANA), the nursing code of ethics is a guide for "carrying out nursing responsibilities in a manner consistent with quality in nursing care and the ethical obligations of the profession." Ethics, in general, are the moral principles that dictate how a person will conduct themselves.

~~What is the Nursing Code of Ethics? | Nurse.org~~

Introduction to Ethics and Nursing. Nurses are required to have knowledge and awareness concerning professional values to provide safe and high-quality ethical care.

Professional values are demonstrated in ethical codes and clarify nursing profession practices, such as the quality of professional care. With the ever-increasing number and complexity of ethical dilemmas in care settings, promotion of professional values has become more crucial in nursing education.

Following moral codes could seem like a new invention, but the code of ethics for nurses origins in one of the most famous manuscripts in the world, the Hippocratic Oath. The oath is historically taken by physicians, but all ethics codes for healthcare professionals generate from it. This oath is the earliest expression of medical ethics and establishes the fundamental principles of modern medicine, including the principles of confidentiality and non-maleficence.
