Your Renault Traffic engine control system detects a problem, the computer stores the diagnostic trouble code P0611 in its memory. To figure out what is wrong with your vehicle you must first extract the P0611 DTC For Renault Traffic. A good ground connection is also extremely important.

## **P0611 Renault Traffic DTC Code | EngineDTC.com**

A stored code P0611 means that the powertrain control module (PCM) has detected an internal control module performance issue. The malfunction is related to the portion of the PCM that controls fuel injector function. In some cases, the fuel injector controller may be separate from the PCM. Most frequently, it is integrated into the PCM.
