Southern Baptist Church
The True Church: The doctrine of a believer's church is a key belief in Baptist life. Members come into the church personally, individually, and freely. No one is "born into the church." Only those who have personal faith in Christ comprise the true church in the eyes of God, and only those should be counted as members of the church.

Unlike other recent studies of the Southern Baptists, Southern Baptist Politics was written after the culmination of the “Baptist battles” of the 1980s, when Fundamentalists had effectively taken control of the denomination. It also considers the SBC not simply as a denomination but as an organization with characteristics similar to other voluntary associations in American society—an approach that promises to be useful for the study of other religious groups in America. Arthur Farnsley concludes that the SBC, as an American denomination, had within itself the seeds of pragmatism and individualism that characterize most American voluntary organizations. Of primary interest to Farnsley are the crucial issues of authority and power. Taking his cue from Paul Harrison's classic study, Authority and Power in the Free Church Tradition, Farnsley considers how authority has traditionally been exercised within the SBC, and how Fundamentalists maneuvered within this existing authority structure to seize power. According to Farnsley, disgruntled Fundamentalists soon discovered that they could exploit the democratic elements within the SBC polity to their advantage. So successful were they in their efforts that by 1990 all significant leadership positions within the denomination were filled by Fundamentalists, thus enabling them to take, and hold, institutional power. The lessons of Southern Baptist Politics extend beyond this one denomination. By using the Southern Baptists as a case study, Farnsley asks what the SBC controversy can tell us about religious organizations in America, about dealing with cultural pluralism, and about institutional means for creating change.

Just what makes a Baptist, a Baptist? What are the beliefs that set Baptists apart from other Christian churches, and are they of any real importance for the local church member who just wants to follow Jesus? Four centuries of Baptists have found those distinctive beliefs to be the command of Jesus in the Scripture, have expressed their love for him by holding and practicing them, and have passed that sacred trust down to us. A church which fails to know and value its Baptist identity becomes subject to error and false teaching and loses the heritage for which its Baptist ancestors were willing to suffer and die. The sermons in this book provide a helpful introduction to the beliefs which distinguish Baptists from other Christian groups and churches, and help readers to consider those beliefs in their proper level of importance. Extensive guides to additional resources in the distinctive beliefs of Baptists and in doctrinal preaching are provided for those desiring further study and for pastors interested in developing similar messages. Includes endorsements from Chuck Kelley and Lloyd Harsch of New Orleans Baptist Theological Seminary and Fisher Humphreys of Beeson Divinity School.

This dissertation demonstrates that a more thoroughly indigenized Canadian National Baptist Convention (CNBC) will have a greater impact on lostness throughout Canada by providing an effective denominational structure ready to meet the challenges of Canadian ministry in the twentieth century. Chapter 1 establishes the unique role of the Southern Baptist Convention (SBC) in Canada in two ways. In no other country does the SBC have active participation from both domestic and foreign mission boards. Also unique to Canada, the SBC partners with the CNBC as if it were a quasi-state convention. The introductory chapter also sketches the rise of Southern Baptist church planting in Canada. Chapters 2 and 3 demonstrate the unique cultural and historical dynamic between the CNBC and SBC. Chapter 2 contends that Canada is a distinct and separate culture from the United States. While acknowledging the reality of multiple regional differences throughout North America and several similarities between Canada and the United States, this dissertation traces the fundamental cultural differences to the distinct national journeys to independence. Chapter 3 provides the historical origins and the early development of the CNBC through the unique partnership with the SBC. Chapters 4 and 5 describe the progression of thought on indigenous and contextualized missiologies. Chapter 4 examines the literature related specifically to indigenous missiology beginning with Rufus Anderson and Henry Venn. Chapter 5 examines the development of contextualization. While most contextualization models have focused primarily on the communication of the gospel, for the purposes of this dissertation, there is a special emphasis on the role of contextualizing national organizations and structures. Chapter 6 establishes a specific near-culture contextual model that will be applied to the CNBC, specifically as it relates to the partnership with the SBC. The near-culture contextual model borrows from several contextualization models as they relate specifically to organizational structure and leadership while incorporating the strengths found within indigenous missiology. In doing so, the dissertation acknowledges the significant contributions of the SBC, while calling for a more thoroughly indigenized CNBC.

Change--in population, economy, and culture--is sweeping through American communities. Corner groceries are stocking new foods. New roads are being built and Main Streets abandoned. Schools have come and gone, and old friends move away as strangers arrive. But in every community, no matter how volatile, religious institutions provide for their members places of moral guidance and spiritual nurture, civic participation, and identity. How do congregations react to significant community change? Why do some religious institutions decline in the face of racial integration while others adapt and grow? How do congregations make sense of economic distress? Do they provide havens from community upheaval or vehicles for change? Congregation and Community is the most comprehensive study to date of congregations in the face of community transformation. Nancy Ammerman and her colleagues include stories of over twenty congregations in nine communities from across the nation, communities with new immigrant populations, growing groups of gays and lesbians, rapid suburbanization, and economic dislocations. With almost half of the nation's population attending religious services each week, it is impossible to understand change in American society without a close look at congregations. Congregation and Community will exist as a standard resource for years to come, and clergy, academics, and general readers alike will benefit from its insights.

Abstract. "This dissertation extends and amplifies current studies on assisting small to medium sized Baptist churches in restoring the biblical paradigm of plural-elder leadership to the current practice of the solo-pastor and board of deacons model. Primary and secondary sources have been examined for commentaries, histories, confessions and manuals which indicate that Baptists have historically practiced the biblical model or plural-elder leadership. Results indicate that not only is this a biblical model but it is an historical practice among Southern Baptists. However, due to external pressures, societal practices and existential demands, Baptists began to practice governmental structures more closely related to the corporate world than the Biblical design. Therefore, this study concludes with a transferable model for assisting the pastor in restoring the biblical model within the local church. / Chapter I introduces the reader to one pastor's experience within multiple congregations and sets forth the dilemma. Chapter II examines relevant biblical texts to discern how the early church was structurally and authoritatively organized. Chapter III reviews historical documents and research to determine how Baptists have practiced church polity across the centuries. Chapter IV analyzes how Baptists have shifted in their ecclesiology both from the biblical texts as well as their historical beginnings. Chapter V offers a transferable model to assist the local pastor in reforming church polity in the charge in which God has placed him. Chapter VI concludes with one pastor's modest attempt at beginning the restoration of biblical leadership within the local church, some encouraging practical reasons to continue the process even when many are opposed, and addresses several additional logistical questions that may arise during the restoration process."

A design-thinking book for planting or redesigning churches and incubating a new generation of leaders. Written by Linda Bergquist and Allan Karr, two experienced church planters and mentors, the book is full of wisdom, practical advice, and creative counsel. Instead of a business-model-as-usual approach, the authors challenge readers to begin with the raw materials of beliefs, values, individuals, teams, and culture, and to then move outwards to draw from a rich palette of real and potential church paradigms. This book is meant to provoke church leaders to think outside of the box and to imagine how their churches might better reflect the image and the mission of God in the world. Contains a wealth of illustrative examples, charts, and other visual aides Offers a creative practical perspective and a multi-disciplinary approach to establishing a new church or leading an existing one Shows how to honor a church's purpose while embracing its unique culture Includes important lessons for nurturing church leadership skills

In this collection of essays, sixteen Southern Baptist leaders address key issues of theology, polity, and practice to ascertain the future of the Southern Baptist Convention in particular and evangelicalism in general.
