The story expertly addresses themes from of repressed memories, and juvenile justice, while questioning the past performance of Wright's protagonist, police detective Karl Alberg. Evocative of the wave-lapped shores and wild inlands of the Pacific Northwest, Strangers Among Us is hard to put down. --This text refers to an out of print or unavailable edition of this title.

A Stranger Among Us is a 1992 American crime drama film directed by Sidney Lumet and starring Melanie Griffith. It tells the story of an undercover police officer's experiences in a Hasidic community. It was entered into the 1992 Cannes Film Festival. It is often cited as one of Lumet's two failures of the 1990s, the other being Guilty as Sin (1993

Strangers Among Us: Tales of the Underdogs and Outcasts is an anthology of nineteen short stories, which was collected and edited by Susan Forest and Lucas K. Law. Nineteen short stories are penned by a mix of authors well known in the science fiction and fantasy genre. For the most part, I rather like most if not all of these contributions.

A producer and cameramen for the new show, “Stranger Among Us,“ were in the Harrisonburg area this week filming. The show plans to feature the murders of Rockingham County firefighter Dennis “Chip” Taylor, 36, his wife, Allaina Taylor, 39, and her 5-year-old daughter, Kaylee Grace Whetzel. It is set to air sometime in 2020.

You may know a walk-in. You may even be one. They are high-minded entities permitted to take over the bodies of human beings who wish to depart this life. Their mission is to lead us into an astonishing new age. They are walk-ins, and there are tens of thousands of them on this planet.

Beginning with the advent of Puerto Ricans in America in the fifties, a lucid evaluation of recent Latino immigration and its dramatic effects on America touches on such issues as bilingualism, assimilation, poverty, welfare, and ethnic consciousness. Reprint.

In 1868 American explorer Charles Francis Hall interviewed several Inuit hunters who spoke of strangers travelling through their land. Hall immediately jumped to the conclusion that the hunters were talking about survivors of the Franklin expedition and set off for the Melville Peninsula, the location of many of the sightings, to collect further stories and evidence to support his supposition. His theory, however, was roundly dismissed by historians of his day, who concluded that the Inuit had been referring to other white explorers, despite significant discrepancies between the Inuit evidence and the records of other expeditions. In Strangers Among Us Woodman re-examines the Inuit tales in light of modern scholarship and concludes that Hall's initial conclusions are supported by Inuit remembrances, remembrances that do not correlate with other expeditions but are consistent with Franklin's.

A teenager arrested for his parents’ murder has a Canadian cop investigating the dark heart of his sunny seaside village in this acclaimed mystery series. Vancouver's “Sunshine Coast” is famous for its beautiful vistas, but closer inspection reveals a strong dose of dysfunction among its quaint villages. Eliot Gardener is maddeningly sullen as only an angry fourteen-year-old can be. He’s also, apparently, a double-murderer, having whacked both of his parents with a machete. At least it’s an open and shut case for Canadian Mountie Karl Alberg. Or is it? Eliot may be guilty, but what drove him to commit such a grisly crime? As Alberg tries to get the troubled boy to talk, he finds himself dealing with dysfunction in his own life. His former neighbor bears him some serious ill will. And he keeps popping up wherever Alberg happens to be. Suddenly Alberg is watching a number of simmering pots . . .and the tension is only heating up.

Edwina Abrams thinks she knows and understands the ghost who's been haunting her since she was a teenager. She thinks she has nothing to be afraid of. She is dead wrong.

Nineteen science fiction and fantasy authors explore the delicate balance between mental health and mental illness; how the interplay between our minds' quirks and the diverse societies and cultures we live in can set us apart, or must be concealed, or become unlikely strengths. Authors include Kelley Armstrong, A.M. Dellamonica and Gemma Files.

This book is to give credit to those immigrants who contributed to the growth and economic development of Blackford County. Indiana when oil and gas were discovered here in the late 19th century. In the immigrant’s eyes this was the fulfillment of their dreams to come to a “new hand” and have the opportunity for a better life for themselves and their families. Truly, America was a “Melting Pot” and our small community proves that.

Lizet, a daughter of Cuban immigrants and the first in her family to graduate from high school, secretly applies and is accepted to an ultra-elite college. Her parents are furious at her decision to leave Miami, and amid a painful divorce, her father sells her childhood home, leaving Lizet, her mother, and older sister, a newly single mom--without a steady income and scrambling for a place to live. Amidst this turmoil, Lizet begins college, but the privileged world of the campus feels utterly foreign to her, as does her new awareness of herself as a minority. Struggling both socially and academically, she returns home for a Thanksgiving visit, only to be overshadowed by the arrival of Ariel Hernandez, a young boy whose mother died fleeing with him from Cuba on a raft. The ensuing immigration battle puts Miami in a glaring spotlight, captivating the nation and entangling Lizet's entire family. Pulled between life at college and the needs of those she loves, Lizet is faced with hard decisions that will change her life forever. Her urgent, mordantly funny voice leaps off the page to tell this moving story of a young woman torn between generational, cultural, and political forces; it's the new story of what it means to be American today.

"Illuminate[s] the lives behind the current debates about Latino immigration." —The New York Times Book Review When fifteen-year-old Maribel Rivera sustains a terrible injury, the Riveras leave behind a comfortable life in Mexico and risk everything to come to the United States so that Maribel can have the care she needs. Once they arrive, it’s not long before Maribel attracts the attention of Mayor Toro, the son of one of their new neighbors, who sees a kindred spirit in this beautiful, damaged outsider. Their love story sets in motion events that will have profound repercussions for everyone involved. Here Henríquez seamlessly interweaves the story of these star-crossed lovers, and of the Rivera and Toro families, with the testimonials of men and women who have come to the United States from all over Latin America. The Book of Unknown Americans is a stunning novel of hopes and dreams, guilt and love—a book that offers a resonant new definition of what it means to be American. Named a New York Times and Washington Post Notable Book, an NPR Great Read, The Daily Beast’s Novel of the Year, and a Mother Jones, Oprah.com, School Library Journal, and BookPage Best Book of the Year

Malcolm Gladwell, host of the podcast Revisionist History and author of the #1 New York Times bestseller Outliers, offers a powerful examination of our interactions with strangers and why they often go wrong—now with a new afterword by the author. A Best Book of the Year: The Financial Times, Bloomberg, Chicago Tribune, and Detroit Free Press How did Fidel Castro fool the CIA for a generation? Why did Neville Chamberlain think he could trust Adolf Hitler? Why are campus sexual assaults on the rise? Do television sitcoms teach us something about the way we relate to one another that isn't true? Talking to Strangers is a classically Gladwellian intellectual adventure, a challenging and controversial excursion through history, psychology, and

scandals taken straight from the news. He revisits the deceptions of Bernie Madoff, the trial of Amanda Knox, the suicide of Sylvia Plath, the Jerry Sandusky pedophilia scandal at Penn State University, and the death of Sandra Bland—throwing our understanding of these and other stories into doubt. Something is very wrong, Gladwell argues, with the tools and strategies we use to make sense of people we don't know. And because we don't know how to talk to strangers, we are inviting conflict and misunderstanding in ways that have a profound effect on our lives and our world. In his first book since his #1 bestseller David and Goliath, Malcolm Gladwell has written a gripping guidebook for troubled times.
