The term Three Principles refers to the innate spiritual gifts of Mind, Thought and Consciousness which every human being uses to generate their experience of life from one moment to the next. The principles provide a universal blueprint for understanding how and why life appears to be the way it is for each of us, and that understanding in itself transforms the way we experience life.

~~The Three Principles — The Insight Space~~

The Three Principles understanding is rapidly spreading around the world and is helping people in many diverse fields such as business, coaching, sports, psychology, addiction recovery, prisons, schools, mental health and creativity. So whatever you are facing in life right now, the Three Principles has huge potential to help.

Techniques / Basic Principles; Understanding Strain. Under the Bates model, vision impairment is caused by a habit of strain in the mind which leads to unnecessary effort when performing any thought or task. While this strain can be brought about by many different factors its solution is to learn how to obtain relaxation.
