Get Free The Ecology Of Learning Re Inventing Schools

The concept of a learning ecology helps us to go beyond the narrow view of schools and other educational institutions as the sole providers of education for learners. Instead, a learning ecology takes into account the myriad of people and places encountered by a learner as she/he encounters on her/his learning journey. Our traditional focus on schools and schooling has more often focused on the structures that support the institution, rather than the activity that supports the learning.
