The Modern Corporation And Private

The Modern Corporation and Private Property is a book written by Adolf Berle and Gardiner Means published in 1932 regarding the foundations of United States corporate law. It explores the evolution of big business through a legal and economic lens, and argues that in the modern world those who legally have ownership over companies have been separated from their control.

The Modern Corporation and Private Property - Wikipedia

Written in the early 1930s, The Modern Corporation and Private Property remains the fundamental introduction to the internal organization of the corporation in modern society. Combining the analytical skills of an attorney with those of an economist, Berle and Means raise the central questions, even when their answers have been superseded by changing circumstances.
