Everything you need to know in a condensed and structured independent study guide specifically designed to prepare you in successfully passing the National Licensing Exam in Marital and Family Therapy. This innovative approach to effective and efficient preparation is tailored to the new format of the National Exam which is now far more application based than knowledge based. As other manuals contain up to 1,200 pages of text covering the entire field of Family Therapy in great detail, this author has condensed the same information down to the bare essentials of what is needed to pass the exam. This is not meant to serve as a thorough review of everything you already learned in graduate school; instead, it will review such knowledge in ways congruent to what the exam will measure. The philosophy of this manual was to teach you how to pass the exam as opposed to reviewing the textbook. The context contains a review of each primary theory to Marriage & Family Therapy as organized by the knowledge domains stated by the Association for Marital & Family Therapy Regulatory Board. To further grasp how these theories are applied to families (keeping in line with the application-based nature of the licensing exam), the author has provided a glossary containing narratives of each approach applied to the same family vignette. To further differentiate this manual from the other available options, Part I contains an overview of the exam, test-taking strategies and study techniques to ensure that your preparations are effective and efficient. It will also move beyond theory and into the other knowledge domains covered on the exam as well as provide a thorough glossary of all key terms and primary interventions labeled by the theory in which they belong. Finally, the manual includes a Practice Exam with correct answers stated along with a rationale as to why each answer was correct or incorrect. Contents include: Part I: About the Exam, Test-Taking Strategies & Study Techniques, Part II: The History of Marriage & Family Therapy, Part III: The Theory & Practice of Marriage & Family Therapy, Part IV: Clinical Considerations & Concepts Part V: The Practice Exam Walk into test day feeling confident and prepared after completing this Independent Study Guide. An affordable and effective resource made by a Marriage & Family Therapist for Marriage & Family Therapists.

This 2nd Edition expands significantly upon the already proven test prep method established in the study guide's initial publication. This updated 2nd Edition includes the following additional chapters: A thorough review of how to think systemically, a new chapter in domain 5 (ethics) and domain 6 (managing crisis situations), introduces the newly developed MFT Licensing Exam's Differential Diagnosis Table for a thorough/compact review of all DSM-5 criteria, expanded chapter on research methods and techniques, as well as on multicultural practices + a 50-question practice exam! - Provided by the publisher.

Prepares Master's and post-graduate level students for the Association of Marital and Family Therapy Regulatory Board's (AMFTRB) Examination in Marital and Family Therapy.

Much more than just a practice exam! This notable addition to MFT Licensing Exam's line of effective and efficient study aids offers the first practice exam of its kind to applicants preparing for the national licensing exam in Marriage and Family Therapy. Providing the reader with far more than just questions, this manual begins with an overview of the national exam, test-taking strategies, study techniques, and a unique section on identifying and understanding the knowledge domains measured on the licensing exam. But the reader will benefit most from the 100-question practice exam weighted to the knowledge domains measured on the actual exam while maintaining congruence in rigor and structure. As Domain 1 on the actual exam measures "The Practice of Systemic Therapy" and accounts for 23 percent of the exam, 23 questions on this practice exam fall within Domain 1's criteria-and so forth. What truly sets this practice exam apart is the following chapter providing a thorough breakdown and analysis of each question as organized by the knowledge domain to which it belongs. Readers will not only be able to score their performance on the exam, but also review which questions were marked incorrect with a provided rationale AND measure how they performed within each particular knowledge domain. And to wrap things up, the author provides an in-depth glossary of key terms and definitions that span the profession and practice of Marriage and Family Therapy. Truly, this practice exam manual stands apart from the rest. Designed to supplement MFT Licensing Exam's Independent Study Guide, applicants can take their next step in test preparations by working through this comprehensive practice exam manual. With MFT Licensing Exam, you can rest assured knowing you TRUST YOUR RESOURCES.

Features of Real Estate License Exam Prep (RELEP): National Principles & Law Key Point Review (60 pages) Real Estate Math Key Formula Review & Practice (20 pages) National Practice Tests (500 questions) Sample Exam (75 questions) We know the real estate licensing exam can be tough, and very nerve-wracking to prepare for. That's why we created the Real Estate License Exam Prep (RELEP) the way we did. Since we have been managing real estate schools and developing curriculum for forty years, we know how all this works -- or fails to work. First, RELEP is comprehensive in that it contains both key content review and testing practice. RELEP's national key point reviews are a succinct compression of tested national principles and practices that comprise the national portion of state license exams from coast to coast. Our content is drawn from our own national textbook, Principles of Real Estate Practice -- one of the most widely used principles textbooks in the country. Thus the breadth and depth of the law reviews and test questions reflect the topic emphasis of the three major testing services for the national portion of the state exam. A word about the test questions... RELEP's testing practice section consists of ten national practice tests and one sample test. The practice tests are roughly 50 questions in length and the sample test is 75 questions. The questions are direct, to the point, and designed to test your understanding. When you have completed a given test, you can check your answers against the answer key in the appendix. You may also note that each question's answer is accompanied by a brief explanation, or "rationale," to further reinforce your understanding. Your particular study and testing practice strategy using RELEP is up to you. But to fully exploit its comprehensive content coverage, you should try to review and memorize the key point reviews as much as possible. Then you should make every effort to take each exam, review your mistakes, and re-read the key point reviews that cover your weaker areas. One note of caution is also in order: this National edition of RELEP does not contain state laws and practices applicable in your state of residence or where you intend to get your license. Therefore you will need to study state-level laws given to you by your prelicense school in order to pass the state portion of the state exam. While we are in the process of adding state-level materials to our RELEP series we still have a ways to go. So, until we have state review materials for your state, we give you this publication -- a total-coverage review and practice resource of the highest quality for the national portion of the state exam. Now that we've have been straightforward with you, a second word of caution. Don't be fooled by other national prep books -- that contain no state-level materials -- that advertise you will pass your state exam by learning and reviewing what's in their publication. You won't. It is absolutely essential that you develop a comprehensive understanding of both national and state laws and principles in order to pass your state's license examination. While RELEP is as comprehensive a national prep text as it gets, in the end -- as your prelicense course hopefully informed you -- it's all up to you. It still takes hard work and study to pass. But we have done our best here to get you ready for the national portion of the state exam. Following that, the most we can do is wish you the best of success in taking and passing your state exam. So good luck!
