The Trilobite Book: A Visual Journey | NHBS Academic ...

The first edition had full-page black and white photographs, almost all taken by the author, and was a visual treasure. Its second edition, published in 1993, was equally attractive. And now we have the third noteworthy Levi-Setti volume, Trilobites' successor, and all 235 plates are in colour. Of course, as explained in the introduction ("Why color?"), the colours are not necessarily original to the trilobite, but are most often mineral coatings resulting from chemical changes in the ...
