With no enduring evidence that a God exists, there is simply no reason to believe in a deity, even if it's not possible to irrefutably disprove his existence. Many thought experiments have been created to show the absurdity of these claims, such as the Invisible Pink Unicorn, Carl Sagan's "The Dragon in My Garage," Russell's Teapot or the Flying Spaghetti Monster.

In reality, the only necessary argument against believing in God is simply that there is no evidence that any gods exist. As clarified above, an atheist doesn't need to justify his or her lack of belief further than this; no evidence supporting the existence of any deities exist.

There is no other way, and it is time for sane human beings to own up to this. This is the age-old problem of theodicy, of course, and we should consider it solved. If God exists, either He can do nothing to stop the most egregious calamities, or He does not care to. God, therefore, is either impotent or evil.

### There is no God - CNET

Although atheists contend that God does not exist and agnostics allege that there is a very high probability that He does not exist, theism is the rational belief that there is a God. A sincere pursuer of truth who follows the available evidence will come to the logical conclusion that God exists.

There is no scientific evidence indicating that God exists. We all know that. For example: God has never left any physical evidence of his existence on earth. None of Jesus' "miracles" left any physical evidence either. (see this page) God has never spoken to modern man, for example by taking over all the television stations and broadcasting a rational message to everyone.

## God is Imaginary - 50 simple proofs

Atheists claim there is scientific proof that God is not real. Theists, on the other hand, insist that science, in fact, has been unable to prove that God does not exist. According to atheists, however, this position depends upon a mistaken understanding of the nature of science and how science operates. Therefore, it is possible to say that,

In this personal, witty, and timely book, New York Times bestselling author Thomas Cathcart takes readers on a journey into belief and unbelief and leads them through to "religionless Christianity." He shows that, even absent traditional theological formulas and doctrines, Christianity can be credible, meaningful, and practical.

in God? Can you be a true believer and still doubt? Can Zen give us a way past our constant fighting about God? Brad Warner was initially interested in Buddhism because he wanted to find God, but Buddhism is usually thought of as godless. In the three decades since Warner began studying Zen, he has grappled with paradoxical questions about God and managed to come up with some answers. In this fascinating search for a way beyond the usual arguments between fundamentalists and skeptics, Warner offers a profoundly engaging and idiosyncratic take on the ineffable power of the "ground of all being."

The God Delusion caused a sensation when it was published in 2006. Within weeks it became the most hotly debated topic, with Dawkins himself branded as either saint or sinner for presenting his hard-hitting, impassioned rebuttal of religion of all types. His argument could hardly be more topical. While Europe is becoming increasingly secularized, the rise of religious fundamentalism, whether in the Middle East or Middle America, is dramatically and dangerously dividing opinion around the world. In America, and elsewhere, a vigorous dispute between 'intelligent design' and Darwinism is seriously undermining and restricting the

teaching of science. In many countries religious dogma from medieval times still serves to abuse basic human rights such as women's and gay rights. And all from a belief in a God whose existence lacks evidence of any kind. Dawkins attacks God in all his forms. He eviscerates the major arguments for religion and demonstrates the supreme improbability of a supreme being. He shows how religion fuels war, foments bigotry and abuses children. The God Delusion is a brilliantly argued, fascinating polemic that will be required reading for anyone interested in this most emotional and important subject.

He is known for both his breakthroughs in theoretical physics as well as his ability to make complex concepts accessible for all, and was beloved for his mischievous sense of humor. At the time of his death, Hawking was working on a final project: a book compiling his answers to the "big" questions that he was so often posed--questions that ranged beyond his academic field. Within these pages, he provides his personal views on our biggest challenges as a human race, and where we, as a planet, are heading next. Each section will be introduced by a leading thinker offering his or her own insight into Professor Hawking's contribution to our understanding. The book will also feature a foreword from Academy Award winning actor Eddie Redmayne, who portrayed Hawking in the film *The*

In one of the biggest religion news stories of the new millennium, the Associated Press announced that Professor Antony Flew, the world's leading atheist, now believes in God. Flew is a pioneer for modern atheism. His famous paper, *Theology and Falsification*, was first presented at a meeting of the Oxford Socratic Club chaired by C. S. Lewis and went on to become the most widely reprinted philosophical publication of the last five decades. Flew earned his fame by arguing that one should presuppose atheism until evidence of a God surfaces. He now believes that such

evidence exists, and There Is a God chronicles his journey from staunch atheism to believer. For the first time, this book will present a detailed and fascinating account of Flew's riveting decision to revoke his previous beliefs and argue for the existence of God. Ever since Flew's announcement, there has been great debate among atheists and believers alike about what exactly this "conversion" means. There Is a God will finally put this debate to rest. This is a story of a brilliant mind and reasoned thinker, and where his lifelong intellectual pursuit eventually led him: belief in God as designer.
